

THE THREAT TO OUR DEMOCRACY

Most recently civil unrest has been occurring all across the United States as democrat officials find amusement in watching President Trump's numbers fall over what they cite as his "dividing the nation." Every major city where this radical unrest is occurring is democrat controlled and has been for decades. The inner cities like Chicago have had decades of violence and murder, and systemic decaying thanks to the lawless and do-nothing democrats who are supposed to take care of their communities. Sounds like human rights violations to me.

Let's be frank. President Trump's numbers are *not* in decline, the "fake media" is playing games once again at the president's expense. Who on earth would stand up for the criminally corrupt, habitual molester of women and children, Joe Biden? Who in their right mind cannot see that this man is not in his right mind, and may be, actually, quite ill? The truth is not being told to us. This man, Biden, has been voted as Democrat candidate for president when he cannot remember who he is speaking to, which state he is in, and how many people have perished from the rogue virus manufactured by human hands to help bring down a president by blaming him for the pandemic. The true danger to this country is now ignorant people! As for the virus... it was concocted by the Chinese for a purpose, President Trump knows it, and so do the NWO socialists who want Trump out! The Fisa Warrant, the Russian hoax, and impeachment ALL failed so the dems had to think of something else to unleash on America so they could lay the blame for it on Donald Trump and have reason to oust him. The pandemic

began far too overwhelming even for the democrats who had to think of another devious plot with which to remove the president. Enter the murder of Mr. George Floyd, a black man who was, without question, murdered as America watched, by a man who may not have been a cop to begin with and who knew Mr. Floyd for years, having worked with him. Questions are arising over this new development, and an investigation should be opened into the sordid events shadowing Mr. Floyd's deliberate murder. Peaceful protestors have every right to protest Floyd's deliberate killing, however, something else happened amidst the peaceful protesting; a well-orchestrated organizing of radical elements came in by the dark of night, like demons, striking at the heart of these communities, burning down buildings and destroying the livelihoods of innocent Americans. They set fires to buildings, cars, threw bricks through store windows from piles that seemed to amazingly "materialize" in neat stacks on nearby corners. They violently attacked innocent people, burned our nation's flag, trashed police precincts, and viciously attacked law enforcement, all in the name of George Floyd. For these anarchists, fascists, it is not about Mr. George Floyd. It is about destroying America from within in preparation for the socialist "takeover" to come.

Antifa and BLM are organizations empowered by the democrat arm and the "shadow" government being run by the puppeteers of the liberal left. They are fascists, plain and simple. They hate America and want to destroy it as does their boss who springs for payment to these groups for their lawless behavior. That would be George Soros, for one, who has boldly stated: *"Destroying America has been my life's work."* Why is the government not investigating George Soros? Probably because many of them have borrowed money from this "person."

When all else fails, bring in the radicals to terrorize. Thankfully, President Trump has declared Antifa a “domestic terror” organization, which they are, despite that Speaker Pelosi and the democrats do not think so, and actually applaud this outlandish behavior. What was it that Governor Andrew Cuomo said about the radicals destroying monuments? *“It’s a healthy expression of people saying let’s get some priorities here and let’s remember the sin and mistake that this nation made and let’s not celebrate it.”* Is it “healthy” to express violence at America’s expense? Think again. It’s sick, twisted, and disastrous for our nation and our citizens.

By the way, for those like General Jack Keane who called the Confederates “vicious traitors,” you should be ashamed. Your knowledge of American history and the U.S. Constitution is *appalling!* The Confederates were not traitors, nor treasonous. It was their right, under the United States Constitution to secede from the Union! They knew their rights and were well within those rights to secede.

While we are speaking truths here, let me add the following: that the American Civil War was not a fight over slavery since slavery was already phasing out. Many southern officers did not own slaves, nor did many southern people who were, in large part, poor farmers or sharecroppers. The last two states to hold onto slaves were the northern states of New Jersey and Delaware. Check the tax rolls during those years, the information is there. I have seen some of the New Jersey tax rolls listing slaves in certain households. President Ulysses S. Grant, whose wife, Julia Dent from Georgia owned slaves, kept them on at his home in Ohio. The most amazing truth, yet, is the fact that one free black man from South Carolina

named William Ellison, was the largest slaveholder in the South. Go ahead and check him out. He was real and it is the truth! And while you are doing your research, why not read the book, "Marxism in the Lincoln Administration" by Walter D. Kennedy. It explains the true reason why the Confederates seceded from the Union, and lists the Marxist members of Lincoln's cabinet. Funny how things have not changed much in Washington since 1863!

The radical fascists toppling the monuments of history have no clue as to who they were and the truth of the history, and they could care less. They are interested in carrying out the "plan" to demoralize and destroy the American people, their culture, and democracy; just as Hitler did to the Germans. Before he took over as dictator, the Nazi fascist turned law enforcement into his army and destroyed the visage of history and heritage so the people could not look back from whence they came. There is "marxism" in the NEW democrat party, explained diligently and thoroughly by author, Trevor Loudon. Believe it!

We have a president now who is being blamed for dividing the country. The truth is that Obama divided this nation. It was Obama, then, and Obama, now, who deviously encourages radical uprisings and lawlessness (remember Fast & Furious), and attacks on law enforcement. He has incited racial division by promoting and rewarding the Black Lives Matter movement, having them to the White House to openly congratulate them, and has stood by silently amid racial attacks and revenge against the white race. Can you think of anything Obama accomplished for the American people while in office other than turning over millions of dollars to Iran for NOTHING in return, lighting the White House with the colors of the rainbow in honor of LGBTQ and same-sex marriage, an

abomination to God! He has committed treason by allowing the spying on of an incoming president for the purpose of influencing his election. Obama divided the United States of America, not President Donald J. Trump.

President Trump has endured four years of relentless abuse and bullying by the liberal left in government and in Hollywood. Why, when many of them were “friends” before he decided to run for office, the same people, like Al Sharpton and Chuckie Schumer, among others, who borrowed money from Trump? Because he knows them, in and out, and they fear he will expose them. President Trump will not expose them, but the running investigations sure will.

We have a president in office, put there by the hand of God, who is doing everything possible to keep America on top, safe, and economically sound. He has taken great care of our nation’s veterans, for whom he has the utmost respect. The left never gave him a chance to govern; they wanted him gone from the beginning. They will try anything to get him out, but he is *not* going. As a matter of fact, Trump has his own “plan.” Soon enough, he will have his justice on the enemy.

If you value democracy, honesty, and pride in your country, VOTE FOR PRESIDENT DONALD TRUMP for a second term! He is the only way to save America. Do whatever you can to insure his success in order to insure the success of our democracy.

Thank you for listening, and remember: *For nothing is secret that will not be revealed, nor anything hidden that will not be known and come to light.*
